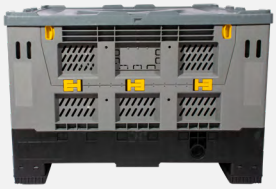
veecopallets

Produced specifically for the storage and transportation of produce and fruit, the vents allows considerable air flow throughout the product to maintain temperature and freshness.

Fold down gates allow users to gain easier access to produce or goods at the bottom on the bin, which prevents back strain for workers.



Folding Bin - Vented with fold down gates

W: 1162 x L: 1162 x H: 780mm

Technical Data	Weight	Volume	Dimensions (mm)	Palette space qty	Racking Locators	Material	UV Treated
Folding Bin - Vented with fold down gates [CFBV]	52kg	750L	1162 x 1162 x 780	9x per space	YES	100% recyclable PP	YES

Benefits

1. **Vented**
   Vented walls and base promote airflow for quick chilling, and maintain temperature and freshness
2. **Flexibility**
   Front and Rear gates + 2 way entry racking locators
3. **Smooth walls**
   Smooth inner walls ensure produce/goods do not catch when tipping
4. **100% recyclable**
   Supporting your sustainability goals.

The Veeco way

Innovation

We strive for continuous improvement and innovation in our recycling processes and product designs, ensuring we meet and exceed industry needs while minimising environmental impact.

Sustainability

We are dedicated to environmental stewardship by transforming post-consumer waste into valuable products, significantly reducing landfill waste, and supporting a circular economy.

Integrity

We uphold the highest standards of transparency, accountability, and ethical conduct in all aspects of our business, fostering trust and reliability with our stakeholders.

Quality

We are committed to delivering superior products that meet the highest standards of quality and performance, ensuring our customers receive durable and reliable solutions.

Veeco Pallets has supplied over 1 million recycled plastic pallets to the pooling market and individual customers, with many enjoying over 15 years of consistent service.

Our Environmental Commitment

A reduced footprint and focus on regenerative and sustainable practices, delivering a brighter future for generations to come.

Leading Sustainability since 1995

Our goal for zero waste does not end with our 100% recycled products. It flows through to our reduced energy & carbon footprints, conscious water consumption, our sustainable procurement measures, ethical values, and the role we play as an industry leader in the community.

Veeco Pallets strives to constantly evolve and remain at the forefront of helping others achieve their environmental goals, as well as our own.

Now, more than ever, businesses are looking to better their environmental, social and governance (ESG) practices. Our products form a key element of this value proposition for many and, above all else, provide a practical solution to achieve real action.

Our Future

While our products and processes evolve, our commitment to innovation, integrity, sustainable practices, and quality remains the same.

Recognising that resources are not infinite; they are finite and must be preserved.

Repurpose. Reuse. Recycle. Repeat...

In Australia, only 13% of household plastic waste is recycled. Waste that is not repurposed, such as 85% of soft plastics, ends up in landfills in an expensive and ineffective practice. Worse yet, a system demanding considerable energy, oil, and CO2 emissions.

By contrast, all our products simply 're-enter' the recycling process after they have served their lengthy purpose. A purpose benefitting you, your business, customers, employees, and our shared goal of a better, more sustainable, tomorrow.

100% Recycled Pallet Solutions leading the charge towards a better tomorrow.

CEV CIRCULAR ECONOMY VICTORIA

Veeco Pallets are proud supporters of the Victorian Government's ***Circular Economy Plan*** - a 10-year initiative set out to reduce waste and boost recycling throughout the state. We encourage all movements towards a greener future built on the foundations of reusing, repurposing, and reducing waste.
