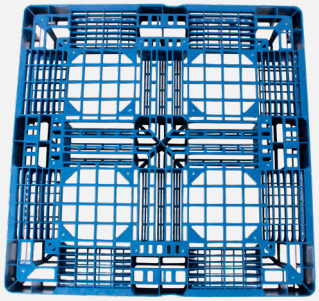
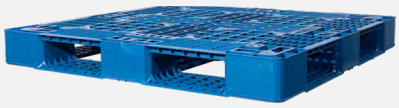
veecopallets



With a high load capacity and light in weight, this pallet is produced specifically for warehouses, goods circulation or the export of goods.



Heavy Duty Export Pallet

Tailored Pallet Solutions 1100 x 1100mm x 125mm

Technical Data	Material	Structure	Dimensions (mm)	Maximum Load Capacities (kg)		Weight (kg)
				Static	Dynamic	
Heavy Duty Export Pallet	Recycled PP	Mesh deck design	1100 x 1100 x 125	1,500	900	8.3

Benefits

1. **4-way forklift or handlift entry**
   Enhances manoeuvrability from all sides, optimising operational efficiency.
2. **Corrosion-proof construction**
   Built to withstand harsh environments, UV resistant, termite-proof and safe for outdoor use ensuring longevity and durability.
3. **Unique slip-resistant surface**
   Rubber buttons to keep goods securely in place, minimise accidents and ensure safe handling available if required.
4. **100% recycled**
   Made entirely from recycled materials, supporting your sustainability goals.

The Veeco way

Innovation

We strive for continuous improvement and innovation in our recycling processes and product designs, ensuring we meet and exceed industry needs while minimising environmental impact.

Sustainability

We are dedicated to environmental stewardship by transforming post-consumer waste into valuable products, significantly reducing landfill waste, and supporting a circular economy.

Integrity

We uphold the highest standards of transparency, accountability, and ethical conduct in all aspects of our business, fostering trust and reliability with our stakeholders.

Quality

We are committed to delivering superior products that meet the highest standards of quality and performance, ensuring our customers receive durable and reliable solutions.

Veeco Pallets has supplied over 1 million recycled plastic pallets to the pooling market and individual customers, with many enjoying over 15 years of consistent service.

Our Environmental Commitment

A reduced footprint and focus on regenerative and sustainable practices, delivering a brighter future for generations to come.

Leading Sustainability since 1995

Our goal for zero waste does not end with our 100% recycled products. It flows through to our reduced energy & carbon footprints, conscious water consumption, our sustainable procurement measures, ethical values, and the role we play as an industry leader in the community.

Veeco Pallets strives to constantly evolve and remain at the forefront of helping others achieve their environmental goals, as well as our own.

Now, more than ever, businesses are looking to better their environmental, social and governance (ESG) practices. Our products form a key element of this value proposition for many and, above all else, provide a practical solution to achieve real action.

Our Future

While our products and processes evolve, our commitment to innovation, integrity, sustainable practices, and quality remains the same.

Recognising that resources are not infinite; they are finite and must be preserved.

Repurpose. Reuse. Recycle. Repeat...

In Australia, only 13% of household plastic waste is recycled. Waste that is not repurposed, such as 85% of soft plastics, ends up in landfills in an expensive and ineffective practice. Worse yet, a system demanding considerable energy, oil, and CO2 emissions.

By contrast, all our products simply 're-enter' the recycling process after they have served their lengthy purpose. A purpose benefitting you, your business, customers, employees, and our shared goal of a better, more sustainable, tomorrow.

100% Recycled Pallet Solutions leading the charge towards a better tomorrow.

CIRCULAR ECONOMY VICTORIA

Veeco Pallets are proud supporters of the Victorian Government's ***Circular Economy Plan*** - a 10-year initiative set out to reduce waste and boost recycling throughout the state. We encourage all movements towards a greener future built on the foundations of reusing, repurposing, and reducing waste.
